Yuzu

osu!catch's official mascot: Yuzu

Make up your mind, Yuzu!

Based on Thievley's submission (which was ranked at 3rd during the polls). Thievley's design were chosen due to the sense of speed expressed in her design.

Yuzu decided to go on a journey to redo his own look, but for some odd reason, he's having a hard time deciding on his looks. Due to that, the team is having a hard time documenting his looks. At least he decided to stick to blue hair with light blue bangs.

He's been inventing some weird things lately to jazz up his looks; like his favourite new orange scarf... which seems to be floating all the time? He often argues with himself whether he looks good with or without goggles.
Urgh, make up your mind, Yuzu!

He seems to pick up some new persona too. He's a lot more.. wacky, erratic, and unpredictable? On the verge of 'annoying' at times.

He sports new side boosters that allows him to perform some flashy quick dashes, with new disc-like plate that can be attached to his side boosters when he's not using it.

The official costume colours are light blue, blue and orange, representing osu!catch's mode colour.
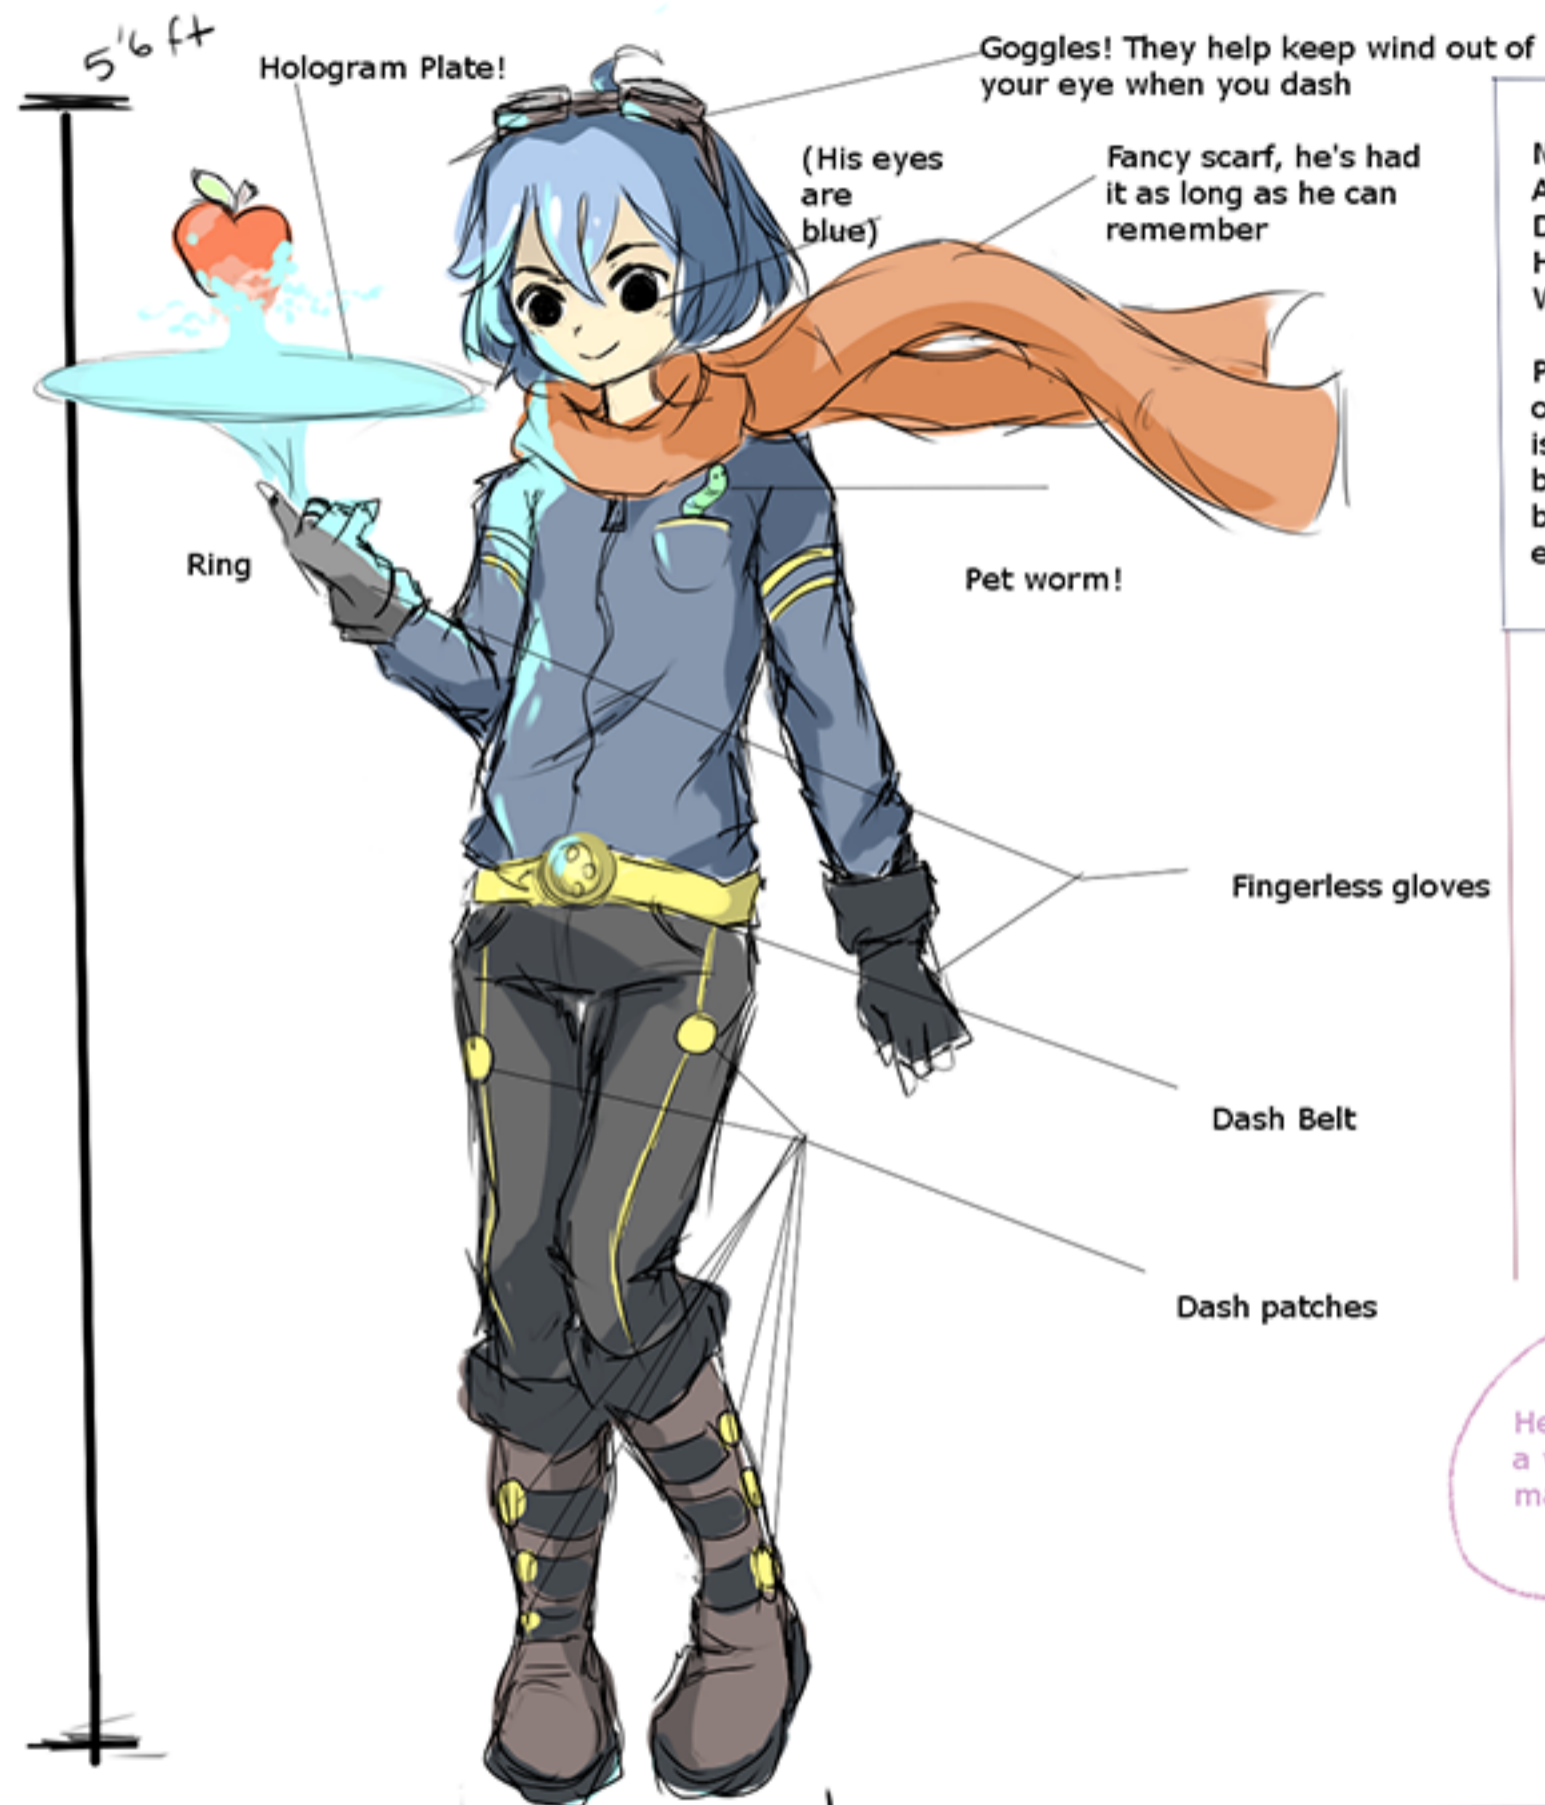

More details on Yuzu will be revealed in the near future, when he stops changing his mind that is.

Fancy scarf, he's had it as long as he can remember

Pet worm!

Name: Yuzu
Age: 16
DoB: April 21st (Taurus)
Height: 5'6
Weight: 120

Personality: Yuzu is calm, patient, and responsible. Out of all the mascots, he is the most quiet, however he isn't shy. He tends to be passive and oblivious, but he is confident in his own abilities! He is passionate but unsure sometimes. He is a polar opposite to the energetic Mocha.

Dash Patches: Through patches connected to his Dash Belt, they are activated when he presses the center of the buckle. When his plate absorbs a hyper dash, this ability is multiplied, but it must still be pressed for optimal control.

Plate/Ring: When activated, his ring can summon a hologram plate that collects fruit and absorbs them at the end of a combo!

He's really kind and a valued member of our mascot family!

Yuzu's key designs are highlighted.

He sports short hair covering his ears, with short ponytails (please ensure that the bangs are distinctive). His scarf is compulsory in any design, and it floats all the time, even when there's no wind. Feel free to make his scarf stupidly long.

He wears a blue flight jacket with comfortable cargo pants packed with many utility pockets. Feel free to go crazy on his cargo pants design, provided that it's only in a single colour.

Attached to belt are side fancy side-boosters that he can use for hyperdashes. Attached to the side boosters are his disc that he uses to catch falling objects.

The official eye colour is violet.
